

C870 / S12 Cinema System

Imagine how it feels with a roomful of sound at your feet. Think of sound so big and clear that even the tiniest detail is revealed. That's precisely what you'll get with the C870 / S12 Cinema System.

It starts with an array of C870 LCR ceiling speakers, each with an 8" Kevlar® woofer articulated to 15°, plus a 1" aluminum dome pivoting tweeter. The C870s "track" the audio in total sync with the video, so your favorite movies and music sound rich and lifelike. There's no need to search for a sweet spot. Just sit back, and let the sound take you there.

The S12 powered sub is part of the picture. Featuring a 12" woofer driven by a 250 watt amp, adjustable crossover and anti-clipping circuitry, it handles low bass and special effects with complete ease.

Listen to the C870 / S12 Cinema System. You'll see what good sound feels like.

Quality-built, of course. Exactly what you'd expect from a premium brand like Proficient.
